THE SURPLUS LAND ATTACHED
THE subscribers offers at public sale on the premises, on Thursday, the 17th of August, 1854, that valuable flouring mill known as the "Bilmont Mill," simuated in Belmoust county, Okio, 5 mles west of Wheeling on the National Road, and in the pretty valley of Indian Wheeling creek.
With it he offers as much of the land as the purchaser may want, with all the improvements thereon, a saw mill, a superior brick dwelling, barn, stables, &c., &c. The mill has the very latest improvements, and its boention is superior.

The balance of the land attached to the mill proportion of the land attached to the mill proportion.

Hosiery and supplied WHEAT & CHAPLINE, April 5, 1851.-3m. Monroe street, Wheeling, William College, William Road, Stranger Strang

stables, &c. . Acc. The mill has the very intest improvements, and its location is superior.

This balance of the land attached to the mill preperty, will be aivided into lots to suit purchasers, one tract to consist of from 130 to 160 acres, with several smaller tracts, one of which is suitable for a market Garden) all immediately on the National Root. The land is very productive.

One of the firm will be in the East a good doal of lightness or that we will be receiving from toods.

DR. J. B: MARCHISI'S

CELEBRATED CATHOLICAN, 100 THE RELIEF AND CURE OF SUPPERING FEARLTS. Wheeling, Sept. 14, 1853 by

It stands pre-eminent for its curative powers in all the dis-enses for which it is recommended, usual ly called ten ale com-plaints. Of these are Prolapsus Uteri, or Falling of the Womb; Incidental Hemorringe, or Flooding; Painful, Suppressed, and irregular Monstruction, &c., with cepted,) no matter

of how long standing The Catholican far surpasses other remedies, in being more certain. less expensive, and leaving the system in a better condition. Let all interested call and obtain a pambut the first state of the most specific from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

BECKBENCES:

By executing all orders in a superjor manner and selling his wares at m derage prices, he hopes to seeme a liberal share of patronage.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pull, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully sidualite the public decision. It has been unfortunate for the patient hitherto that almost every purpative medicine is actimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to secrethan counterbalance the good to be derived from them. These pills produce no irritation or pain unless it arise from a previously existing obstruction or decapement in the bewels. Being purely vegetable, no harm can arise from their me unavequantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several disenses to which they are explicitable are given on the box. Among the receptaints which have been appended whether we claimts which have been appended to the law, we be taken judiciously. Minute directions for their use in the several diseases to which they are spilicable are given on the box. Among the several plaints which have been appeality cured by clean, we may mention Liver Complaint, in its virious forms of Janudice, Indigestion, Languor and Josa of Appetite, Listlesaness, Irritability, Silious Headache, Bilious Fever, Fever and Ague, Pain in, the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperiont, they adord prompt and sure relief in Cestiveness, Piles, Colic, Dynentery, Humers, Scrofula and Scurey, Colds with sergness of the body Ulerrs and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some engalsals surcessful cures in Rheumatism, Gout, Drawy, Gravei, Errsipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose sti unlates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system; drouvate the strength of the body, and nestore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists, but unnecessary dosing should never be carried too fire as every purgative medicine reduces the attention, when taken to excess. The thousand cases in which a physic is required cannot be emmercated brief, but they suggest themselves to the reason of cycery very very carrier to the relative transcription of the west to the reason of cycery very very contractive to the reason to the reason of cycery when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pin will maswer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remoty to amplor when it has a sentintric medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can grise from their useful my duratity.

For minute directions seen wrapped out the Bex.
